INTRODUCTION

The Holy Quran contains approximately 600 pages, and each page has an average of 130 words. This means the Quran has around 78,000 words in total.

Among these, there are certain words that appear repeatedly throughout the Quran. In fact, studies and linguistic analysis show that just 600 unique words make up around 80% of the Quran's content.

This means that by learning these 600 most frequently used words, you can begin to understand the Quran directly in Arabic, without always needing a translation. Not only will this deepen your connection with the Quran, but it will also enhance your focus during salah (namaz), as many of these words are also used in daily prayers.

This eBook is a carefully compiled collection of those 600 frequently occurring words, designed to help you take your first meaningful step toward understanding the words of Allah.

We pray to Allah Subhanahu wa ta'ala to grant us all the true understanding of the Quran, guide us on the straight path, and increase us in beneficial knowledge and wisdom.

Ameen.

INSTRUCTION

This book is designed to help you learn and understand the 600 most frequently repeated words in the Quran, with a layout that is simple, clear, and effective. Here's how to use each section of a word entry:

1. Arabic Word (Top Left)
    - The word is displayed in its original Arabic script.
2. Pronunciation in English (Brackets)
    - Next to the Arabic word, you'll find its pronunciation written in English letters, to help you pronounce it correctly even if you're not fluent in Arabic.
3. English Meaning (Top Right)
    - The meaning of the word in English is provided for clear understanding.
4. Roman Urdu Meaning (in Brackets)
    - Just beside the English meaning, the word's meaning is also written in Roman Urdu (Urdu using English letters) to assist native Urdu speakers.
5. Word Type
    - Each word is labeled with its grammatical category — whether it's a noun, verb, pronoun, adjective, etc.
6. Frequency in the Quran
    - You'll see how many times this word appears in the Quran, so you understand its importance and usage.

7. Quranic Verse Example
    - An example verse from the Quran that contains the word is provided in:
        - Arabic
        - English translation
        - Roman Urdu translation
    - The word you're learning is highlighted in all three versions for better recognition.
    - The verse reference (e.g., Surah and Ayah number) is given immediately after the Arabic verse.
8. Progress Tracker (Bottom of the Page)
    - At the bottom of each word's page, your learning progress is displayed — showing what percentage of Quranic vocabulary you've covered by learning that word.
    - After completing all 600 words, you will have learned the vocabulary that makes up approximately 82% of the repeated words in the Quran, In Sha Allah.

We recommend studying a few words daily, revising regularly, and reflecting on the Quranic verses provided. With consistent effort and sincere intention, this journey will bring you closer to understanding the divine words of Allah Subhanahu wa ta'ala.
May Allah bless you with beneficial knowledge and make this path of learning easy and rewarding for you. Ameen.

Religion with God is Islam. Those to whom the Scripture was given differed only after knowledge came to them, out of envy among themselves. Whoever rejects the signs of God—God is quick to take account.

Allah ke nazdeek deen sirf Islam hai, is deen se hatkar jo mukhtalif tareeqe un logon ne ikhtiyar kiye jinhein kitaab di gayi thi, unke is tarz-e-amal ki koi wajah iske siwa na thi ke unhon ne ilm aa jaane ke baad aapas mein ek dusre par zyadati karne ke liye aisa kiya. Aur jo koi Allah ke ehkam o hidayaat ki itaat se inkar karde, Allah ko us se hisaab lete kuch dair nahin lagti hai.
